Salt, min.	14.50%
Salt, max.	17.40%
Magnesium, min.	5.90%
Potassium, min.	1.00%
Copper, min.	1,000 ppm
Manganese, min.	4,000 ppm
Selenium, min.	17.50 ppm
Zinc, min.	4,081 ppm
Vitamin A, min.	300,000 IU/lb
Vitamin D, min.	16,000 IU/lb
Vitamin E, min.	1,325 IU/lb

CORE CALVING MINERAL

uses natural ingredients to set the industry standard to improve calf vigor at birth, aid in the prevention of scours and help return the cow to estrous quicker.

- BioMos® and SelPlex® improve the immune system
- BioPlex® chelated minerals help repair the reproductive tract.
- Natural Vitamin E is more available and aids in bolstering the immune system.
- Formulated with Nutri-Guard technology to protect the mineral from the elements.

R&B FEEDS PASTURE MINERAL PROGRAM

FESCUE MINERALS SUMMER MINERAL PACKAGE

These elite Breeder Minerals are formulated to balance fescue.

- BioPlex® minerals are chelated to provide greater bioavailability of Zinc, Copper, Manganese and Cobalt to stimulate the reproductive system.
- SelPlex® is added for improved immune system response.
- Adds direct fed microbials for greater forage utilization.
- Mycobond® helps bind the toxins associated with fescue toxicosis.

Use IGR Fly Control to protect your herd from losses due to horn fly populations. Cattle will spend less time and energy fighting the discomfort of flies allowing for production efficiency. Ideally, fly control programs start in April and continue through September.

SOUTHERN IOWA COW CALF MINERAL

provides year around balanced mineral nutrition for cows grazing pastures in Southern Iowa and Northern Missouri. A proper ratio of Copper and Zinc combine with a high level of Vitamin A and proper amount of Phosphorus to provide consistent source of nutrition while targeting forages common in the Midwest.
